Between Heaven and Earth

The greatest gift we can give humanity is our commitment to constantly raise our level of consciousness and vibration.

Breathe Australia conference is an opportunity to experience and understand the healing power of conscious breathing.

It is open to anyone seeking a week-end of relaxation, nourishment and growth.

It is open to therapists and practitioners of any modality who are looking at acquiring or building upon stress management skills for themselves and their patients.

*The theme of the conference, **Between Heaven and Earth**, will allow us to look into the influences on our health of the energies of the Heavens and the Earth.*

The ability to gather and connect both those energies lies within each human being.

We as humanity are the link between Heaven and Earth.

*Rebirthing Breathwork is a simple, gentle yet powerful healing technique.
It is conscious breathing.*

Full, conscious, connected breathing is perhaps the most valuable self-healing skill that humans can learn.

During the conference we will experience the simplest breathing technique that induces relaxation, stress reduction and vitality to more enhanced techniques that supports us to clear unresolved issues, allowing us to access our essential nature, free of "dis-ease".

Discover the power of conscious breathing from our range of experienced professional therapists and authors who will be conducting workshops on the various styles of Breathwork.
